

PART II. REMARKS

1. The present REPLY/AMENDMENTS is supplemental to the entered REPLY / AMENDMENTS and RCE SUBMISSIONS filed under 37 C.F.R. §§ 1.111 and 1.114 on 18 September 2007 (See 37 C.F.R. §§ 1.111(a)(2)), and is submitted for the sole purpose of adopting the Examiners' suggestion made during the aforementioned Telephone Interview.
2. Therefore, Applicant respectfully **requests** entry pursuant to 37 C.F.R. §§ 1.111(a)(2)(i)(B) and that the Examiners consider the present supplemental REPLY/AMENDMENTS together with the REPLY filed on 18 Sept. 2007. The markings in the foregoing AMENDMENTS TO CLAIMS are made relative to the version filed on 18 Sept. 2007.
3. Applicant has previously presented Claims 1-99 for consideration in the Application. In the foregoing and the previously filed AMENDMENTS, Claims 1-60, 64-67, 69-80, 83, 84, and 86 are cancelled, without prejudice, and Claims 61-63, 68, 81, 82, 85, and 87-99 are presented for prosecution.
4. During the Telephone Interview on 11 October 2007, the independent Claims 61 and 82 were fully discussed. The Examiners suggested that: (i) the claim limitations in the previously submitted Claims 61 and 82 were not sufficient to overcome DELEEUEW (the primary prior art reference applied in the Office Actions), because a broad interpretation of the claim languages of "LIVE INFORMATION DATA RECEIVED FROM A REMOTE COMPUTER ... INCLUDING TEXTUAL DATA ..." could mean that the "LIVE INFORMATION DATA" is of the data types of **both** text data as well as video data that include textual information; thus further limitation is needed to limit the scope of data type of the Claims to "text data" (*i.e.*, excluding video data); (ii) accordingly, the claim limitation of "**text format data type**" may be added to overcome DELEEUEW.
5. In Accordance therewith, the foregoing Amendments to the Claims 61 and 82 were made following the Examiners' such suggestion of adding the limitation of "text format data type".

Respectfully Submitted

SIGNED ON: 12 October 2007
